

Thermal separation unit

- Designed for use with the Autocut 85 QC
- Used to cut and seal the ends of plastic tissue or tubes

Data sheet

Part number:	10255
Delivery time:	3 – 4 weeks
Technical data:	
- Max. Material diameter	20mm
- Max. Material width	85mm
- Minimum cut length*	At least. 50mm (shorter lengths possible with low-holder)
Pneumatik data:	
- Air pressure	6bar with clutch for AC85 QC
- Air consumption	0,05 Liter per cut
Electrical data:	
- Voltage, power*	230 / 115 VAC 100W
- Interfaces*	15pol Sub-D for AC 85 QC
Dimension:	
- Width	253mm
- Length	120mm+ 200mm outlet chute
- Height	320mm
- Weight	5kg
Available accessories:	
	10256 Separating wire

*only electrical machines

**material-related greater variances possible
