

STRIPPER M 10/170
Manual dismantling technology

Stripper M 10 / 170

The manual operated cable insulation remover Type M 10/170, is used in the electrician`s workshop or in the cable pre – assembly industry, when the insulation of the cable has to be removed quickly.

Once adjusted, a simple pull on the hand lever and apart of the outside insulation is removed.

The cutting blades and stripping length can be adjusted easily without Any tools.

Cutting blade sets are not included in the basic equipment !
